
BPN-DE SERIES

A DIAMOND IN THE ROUGH

727 Phillips Drive, City of Industry, CA 91748 I TEL:1-888-989-1189 I FAX: 1-626-301-0588 I www.istarusa.com

iStarUSA's BPN series hard drive cages, after undergoing three generations of rebirth, has again become this year's hot item. Since the previous generation, these hard drive cages have experienced massive changes: external facelift and internal update and renewal, which makes it one of the must-buy items of 2011. The compact SATA/SAS Tray-less Hot-Swap Cage is your ideal solution for information storage and raid configuration. The BPN-DE hard drive cage series' speed, versatility, and reliability will fit into a variety of workflows and are great solutions as an affordable storage system. But most importantly, this translates into more capital in your savings.

Converting two standard 5.25" drive bays into three usable hard drive slots or three 5.25" into four usable hard drive slots, the BPN-DE series's economical screw-less design maximizes your investment and ups your efficiency and time by fast HDD mounting and swapping capabilities.

With this device, hard disk drives are free-flowing. It can be installed and replaced easily at any time without the need to take off the PC casing, which again leaves less down time and more work time. At the same time, this product's secure key locks prevent accidental access.

BPN-DE bezels come in four colors: black, red, blue, and silver that feature the new aluminum bezel design and aluminum frame that reduces weight and maximizes heat dissipation. Aluminum Frame, designed to protection for your hard drives from external forces and internal harm of overheating. The new construction is for heavy-duty purpose and ready for any given work environment.

Blue and Red indicator lights show power and hard drive activity. The new model offers up to fifty percent increase of transfer rate, which is approximately six gigabytes per second. Now the new BPN-DE hard drive cage series even has fan control switch. After it is mounted on the chassis, you can reach the control on the back of the unit to control the fan speed with ease.

Since the chassis protects the internal hard ware, then it is essential that we select the right chassis for your hard ware and especially for these hard drive cages. We strongly recommend fitting the BPN-DE series to our Server Rackmount Chassis the D-400SE model. We also suggest any of our iStarUSA tower chassis series. Of course the BPN-DE series is a universal fit with most rackmount or PC desktop towers.

BPN-DE230SS *2x5.25" to 3x3.5" SAS/SATA Trayless Hot-Swap Cage*

BPN-DE340SS *3x5.25" to 4x3.5" SAS/SATA Trayless Hot-Swap Cage*

- Aluminum Frame, designed for heavy-duty purpose
- Support SAS I/II, SATA I/II/III Hard Drives
- Data Transfer Rate up to 6.0 Gb/s
- Integrative shaping aluminum design for quickest heat sink
- Aluminum front bezel with metal key lock mechanism for double safety
- Removable fan cover for easy maintenance
- Multi-functional LED Indication
- Support Hot-Swap & RAID Configuration (need an additional RAID controller)
- Low-noise Design with Fan-speed Control
- 3TB Hard Drives Compatible

E-204L AND E-306L

ASK NOT WHAT YOU CAN DO FOR YOUR CHASSIS, ASK WHAT YOUR CHASSIS CAN DO FOR YOU.

E-306L

3U E-ATX 6 x 5.25" Bays Rackmount Chassis

- 80mm x4 Cooling Fans
- 1.6mm Steel Body Chassis
- Power and Alarm Reset Switch
- Power LED Indicators
- Supports Front Access USB2.0 x2
- Supports E-ATX Motherboard

E-204L

2U E-ATX 4 x 5.25" Bays Rackmount Chassis

- Power and Alarm Reset Switch
- 1.6mm Steel Body Chassis
- 80mm x4 Cooling Fans
- Supports E-ATX Motherboard
- Supports Front Access USB2.0 x2
- 2 x 3.5" Bays & 4 x 5.25" Bays
- Power LED Indicators

The new faces of rugged rackmount chassis by iStarUSA have arrived. From the ground up, the 2U E-204L and the 3U E-306L are redesigned to enhance your operation. From its heavy-duty steel body to its flexible drive bays, these new models from the E-Storm Rugged Series are cut out to get the job done in rough working environments. Both chassis are economically designed to house 2U form factor single and redundant server power supplies and are compatible with industrial rackmount rails for mounting on server cabinets or racks. With room for an E-ATX motherboard, these long bodied chassis are ready for the server room as well as field operation. The E-204L and the E-306L serve a multitude of tasks, but ultimately, it serves you.

D2-400-7-BLUE

THE GRAND OPENING

The grand arrival of the new D-Storm Series stylish Rackmount Chassis is the D2-400-7-BLUE. Major upgrades from its predecessor includes quick grip handles with reinforced aluminum, flip down bezel for widest drive bay installation room, and iStarUSA's stylish blue aluminum bezel. The 7+1 frontal drive bay design optimizes the utilization of the chassis that includes optical drive devices, hot-swap cages, as well as additional rooms for hard drives. A new opening brings new opportunities. Visit our website for more product support information.

4U Compact Stylish Rackmount Chassis
- Front access USB2.0 x2
- Power and HDD LED
- Standard I/O shield
- Power and reset switch
- 80mm x1 cooling fan

D7-400-6

EVERY CLOUD HAS A SILVER LINING

The wind of cloud technology is blowing through the roof on the demand curve, data centers needs to increase its capacity to manage data storage needs. The new all-silver iStarUSA D-Storm Series Rackmount Chassis, the D7-400-6, is the ideal build for any data center projects. Equiped with all the cutting edge construction that includes aluminum bezel and handles, seven expansion slots, and 6+2 frontal drive bay design. Its unique look and outstanding performance will stand out in a field of storage equipment.

WB-670
RUGGED SERVER EQUIPMENT LOCKER

WB series wall-mounted cabinet is built with high-quality aluminum/steel structures and anti-vibration patent design. The cabinet is standing on two racks, which are mounted on the wall. Optional 2*120mm Cooling Fans are able to maximize air circulation. This stylish and secured cabinet is optimized for small business, research institutions, distribution warehouses, manufacturing facilities, professional studios and many more. IT protection comes first, protect IT equipment with the WB-670.

- Wallmount or desktop stand-alone
- Excellent air ventilation design with dual AC cooling fans
- Lifetime Warranty
- Universal Fit for most of rackmount chassis and equipment
- Front lockable door
- Two wallmount racks
- Optional 2x120mm Cooling Fans

WN SERIES

ELEGANT IN DESIGN AND QUALITY

The reliable WN Series Enclosed Cabinets have continued to provide the greatest satisfaction to customers. For any type of application, the WN Series Enclosed Cabinets have the height as well as the depth sizes that will do the job. With vented doors and cooling fans, the cabinets provide excellent air circulation for servers and other devices. The cabinets are completely lockable from the front, rear, and sides to prevent unauthorized access. Protect IT investment against environmental elements in heat and dust. The WN Series offer a superior environment for mission-critical equipment.
