D-A120T-ITX and D-A380-MATX

Tool-less Hotswap at Its Best

The D-A120T-ITX and D-A380-MATX series chassis from iStarUSA are tool-less server racks designed with elegance and functionality fit for the home. With storage capacity up to 4 TB per bay, you can maximize data storage and backup functionality at the same time. They're compatible with AMD and Intel processors, serving as an ideal platform for HTPC and audio/video builds.

The D-A Chassis come with 3.5" tool-less hotswap drive bays that are also compatible with 2.5" SSD's or HDD's. Both are equipped with hot-swappable HDD backplanes and 2 front-access USB 2.0 slots. Both models also come with a key lock design on HDD trays to increase security. To quickly swap out hard drives, just unlock the drive bay and slide in the hard drive. It's that easy – no tools, no screws, no cables to mess with.

ODD not included
