

Wall Mounts

Organize Your Workspace

The Cure to Clutter

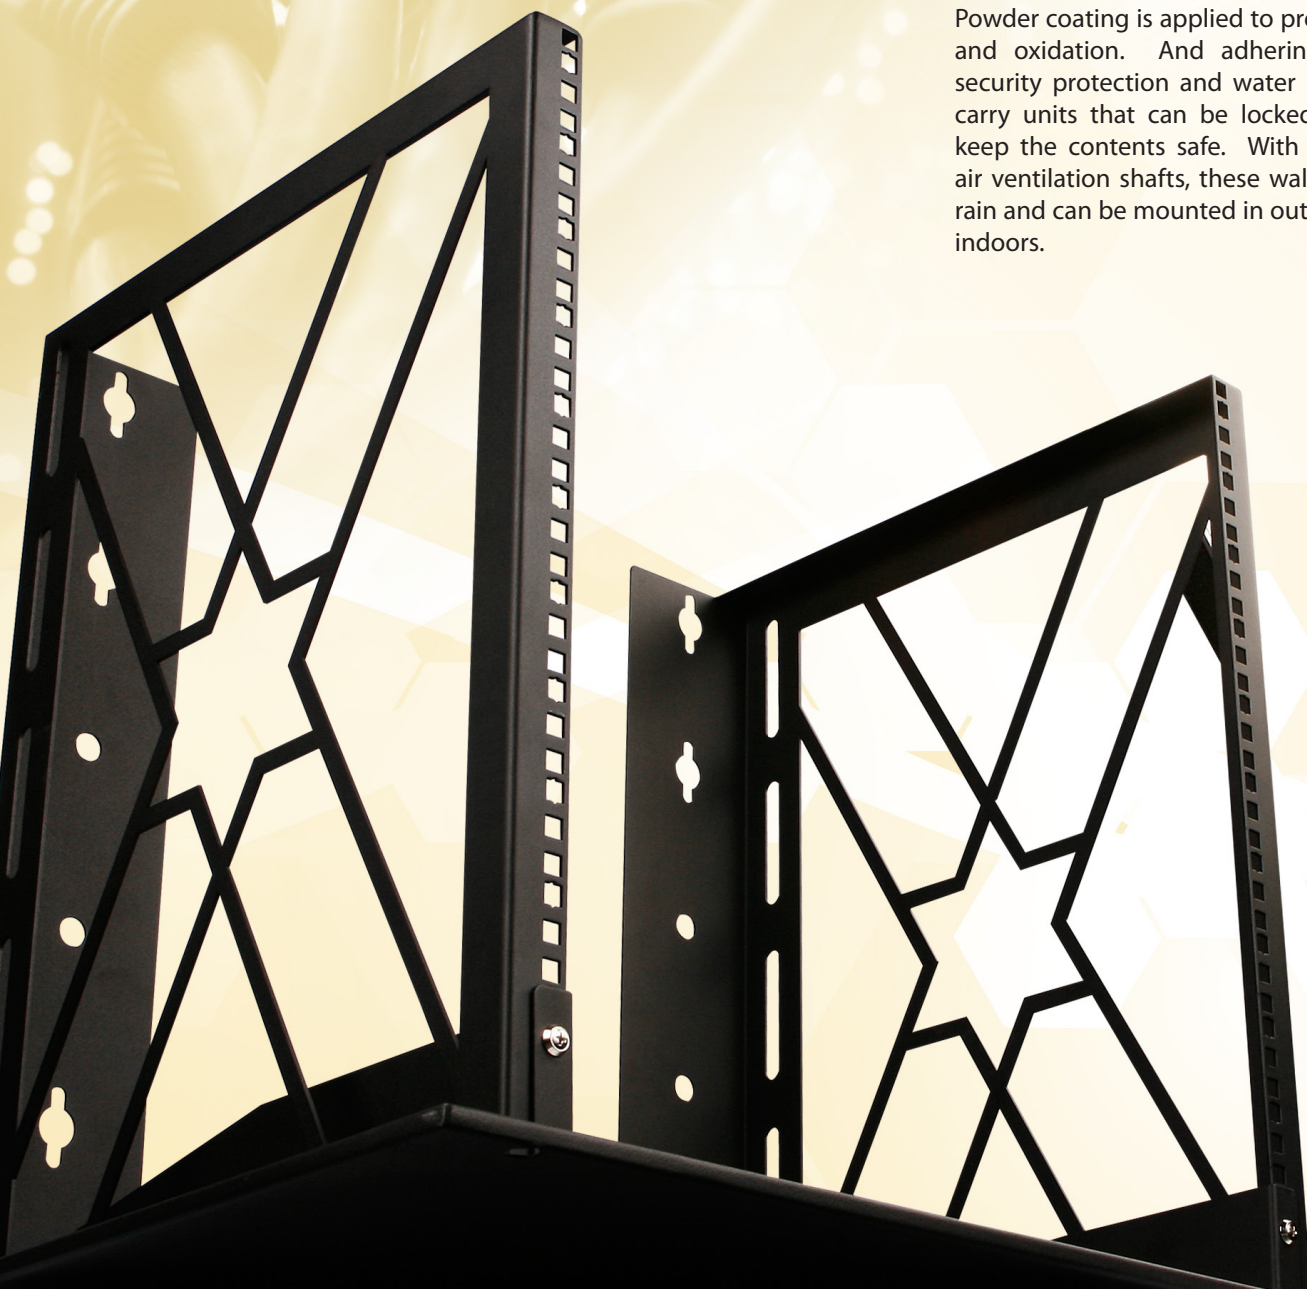

Wall mounts are a cure to all the clutter of technology: the wire jumbles, the bulky space-filling cabinets, the computer monitors and other knickknacks. Wall units can free up your floor space and make it usable for other needs.

Room to Breathe

The open frame construction allows for open air ventilation (or maximum air flow). For added ventilation this enclosed unit even allows space for a fan. The straightforward design allows for simple assembly and dismantling of the wall unit.

Protection

Powder coating is applied to prevent rust, scratches, and oxidation. And adhering to the need for security protection and water protection, we even carry units that can be locked in to conceal and keep the contents safe. With downward pointing air ventilation shafts, these wall units are safe from rain and can be mounted in outdoor areas as well as indoors.
